## Long Term Disability Insurance Provides Income Replacement Should You Become Disabled

Most people insure their car, their health and their life. However, almost everything you own is based on your ability to earn an income. Disability insurance allows you to receive a portion of your lost earning should you become disabled.

### Just Over 1 in 4 of Today's 20-Year Olds Will Experience a Long Term Disability Before They Retire.<sup>1</sup>

Nobody wants to think about a tragic, long term disability. Your employer understands the importance of Long Term Disability insurance, which is why this benefit is being made available to you. Disability benefits can help pay your mortgage, college tuition, medical insurance payments, or more.

In 2019, less than 1% of Americans missed work because of a work-related illness or injury. The most common reasons for disability claims include pregnancy, musculoskeletal disorders, cancer, and injuries such as fractures, sprains, and strains of muscles and ligaments.

More than half a million American families file for bankruptcy every year because they can't pay their medical debt.<sup>3</sup>

The risk of long term disability during a worker's career is greater than the risk of premature death. Yet most workers would never think of going without life insurance protection for their families.<sup>4</sup>

### What about Social Security Disability, Workers' Compensation, and Other Insurance?

- The average national rate of approval for those who applied for Social Security Disability Insurance benefits is 36%.<sup>5</sup>
- Workers' Compensation provides benefits ONLY if a disability is a result of an on-the-job accident, injury, or occupational disease. Less than 1% of workers miss work because of a work related illness or injury.<sup>1</sup>
- Unemployment compensation is only for those who are physically and mentally able to work.

### Most Common Reasons for Short Term Disability Claims<sup>3</sup>

- Pregnancies
- Musculoskeletal Disorders
- Fractures, sprains, strains of muscles and ligaments

### Most Common Reasons for Long Term Disability Claims<sup>3</sup>

- Musculoskeletal disorders
- Cancer
- Fractures, sprains, strains of muscles and ligaments

## Are There Any Medical Questions or Tests Needed to Qualify for Disability Insurance?

Individual insurance carriers often require medical questions, blood tests and/or a visit with a nurse or physician. With group insurance, the insurance company's risk is lower because it is based on the claims history of the entire group, rather than your personal health history. Therefore, the insurance company is often able to offer a period of time where you can purchase disability insurance without medical questions or tests. Certain conditions may apply.

## What Is an "Elimination Period"?

An Elimination Period is the time between when your disability begins and the time you are eligible to receive benefits. No benefits are paid during the Elimination Period.

## Your Premiums Are Waived When You Begin to Receive Benefits

While you are disabled, you don't want to worry about paying for your coverage. The Waiver of Premium feature waives your disability insurance premium. This begins as soon as you start receiving disability benefits and continues while you are disabled.

## How Is This Plan Different than Short Term Disability Insurance or Sick-Leave Pay?

Short Term Disability insurance and sick-leave plans pay for a specified period of time – typically 6-52 weeks. After the Elimination Period (see above), your Long Term Disability plan will pay benefits for a specified number of months or years if you are unable to work in your current occupation. If you are unable to work in any occupation, you will usually receive benefits to age 65 or later (depending upon the age when you became disabled).

## Does Disability Insurance Cover Pregnancy?

Pregnancy, child-birth, and related medical conditions are covered the same as any illness.

# Group Voluntary Disability Insurance Plan — FAQs

## Can I count on sick leave pay and sick leave banks instead of purchasing disability insurance?

Sick leave pay and sick leave banks can be used during a disability, but there are many limitations.

- Younger workers generally have not accumulated enough days to cover an average disability such as a health condition, accident, or pregnancy-related disability.
- On average, more than one in eight disabled employees are out of work for more than five years.<sup>1</sup>
- Typically, there are limits on the number of days members can draw from sick leave banks.
- Receiving days from sick leave banks are subject to employer approval, not based on a physician's diagnosis.

## What about PSERs disability insurance plan?

PSERs is the Public School Employees Retirement System that has a disability insurance component. You must be working for 5 years before becoming eligible for coverage under this plan. Once covered, the plan has limited benefits.

## Could I just take a sabbatical if I became disabled?

Yes, however similar to the sick banks, your leave must be board approved, rather than approved by a physician. You also must be working for 7 years to be eligible, which may not include newer employees. Also, the sabbatical requires you to return to work, which means if you were permanently disabled, you could not use a sabbatical.

## What about Social Security, Workers Comp and other insurance plans?

- Only 36% of the 2.8 million workers who applied for Social Security Disability Insurance benefits in 2021 were approved.<sup>2</sup>
- Workers' Compensation provides benefits ONLY if a disability is a result of an on-the-job accident, injury or occupational disease. Close to 90% of disabling accidents and illnesses are not work related.<sup>3</sup>
- Health Insurance covers medical services and prescriptions; but it doesn't help you cover your standard expenses if you cannot work.
- Unemployment Compensation is for those who are physically and mentally able to work.

## Am I eligible for this coverage?

You are eligible for this plan if you are an active employee of Upper Merion School District working a minimum of 20 hours per week.

# Group Voluntary Disability Insurance Plan — FAQs

## Are there any medical questions?

If you are a new hire or a newly eligible employee, you can purchase this plan without medical questions or tests if the following conditions apply to you:

- If you enroll within 31 days from your date of hire or eligibility date
- If at least 25% of all eligible employees are enrolled

If you enroll late, wish to change the plan option you are currently enrolled in (moving to a lower elimination period), or if less than 25% of eligible employees have enrolled, you will need to complete the medical questionnaire. Please note that coverage may be denied based upon your answers to the medical questions.

## What is the Medical Premium Expense Benefit (MPEB)?

This policy includes a feature called MPEB. If you become totally disabled for more than 60 days, are still covered under your employer's health insurance and are receiving regular medical care, MPEB will contribute up to \$500 per month toward your monthly health insurance premium payments for which you are responsible for up to 17 months.

## What is an "elimination period?"

An elimination period is the time between when your disability begins and the time you are eligible to receive benefits. No benefits are paid during the elimination period. There are several elimination period options to choose from.

## Is income tax withheld from my benefit payments?

If you pay for this insurance with post-tax dollars, the benefit is not subject to income tax. Please see your tax adviser for complete advice.

## Do I have to continue to pay the insurance premium after I become disabled?

The Waiver of Premium feature waives your disability insurance premium payment during a disability. This begins as soon as you start receiving benefits and continues while you are disabled.

## What if I earn income while I'm disabled such as Social Security income?

As with most disability insurance plans, benefits are reduced by other income you may receive during a disability, including employer-sponsored sick leave pay, Social Security or a State Retirement Disability benefit plan.

## How much coverage is available?

Long Term Disability benefits replace a fixed percentage of your salary - typically 50-60% - up to a maximum monthly amount. See the cost calculation sheet enclosed to view the coverage options, rates and maximum monthly benefit.

## Rates and Cost Calculation

### Your Plan Benefits

Option	Elimination Period	Percent of Salary	Maximum Monthly Benefit	Benefit Duration	Rate	MPEB Annual Cost

2	30 consecutive calendar days before benefits kick in	60% of salary covered	\$5,000	To age 65 with a reducing benefit duration	\$0.011	\$30.24
